Solution Brief

Sophos MDR

Expert-Led Threat Defense

Sophos Managed Detection and Response (MDR) is a fully managed 24/7 service delivered by experts who detect and respond to cyberattacks targeting your computers, servers, networks, cloud workloads, email accounts, and more. With Sophos MDR, our expert team stops advanced human-led attacks and takes immediate action to neutralize threats before they can disrupt your business operations or compromise your sensitive data.

Use Cases

1 | 24/7 THREAT MONITORING

Desired Outcome: Extend your IT and Security team with experts who can respond to threats on your behalf.

Solution: Our highly skilled experts monitor, investigate, and respond to threats 24/7—executing immediate, human-led response actions to stop confirmed threats. Sophos employs 500+ threat detection and response experts backed by seven global security operations centers (SOCs).

2 | ACCELERATE THREAT RESPONSE

Desired Outcome: Improve your mean-time-to-respond (MTTR) to confirmed threats.

Solution: Sophos MDR analysts can execute threat response actions on your behalf to disrupt, contain, and eliminate attackers with an industry-leading average threat response time of 38 minutes—96% faster than the industry benchmark.

3 | STOP WHAT SECURITY TOOLS MISS

Desired Outcome: Detect more cyberthreats than security tools can identify on their own.

Solution: Sixty-five percent of ransomware attacks start with an attacker exploiting legitimate user credentials or an unknown vulnerability and 29% start with compromised credentials. Sophos MDR analysts perform proactive threat hunts to identify attacker behaviors that only a human can detect and rapidly eliminate threats that tools alone can't stop.

4 | IMPROVE ROI

Desired Outcome: Consolidate security technology from across your environment and get more ROI from your technology investments.

Solution: Sophos MDR can provide the technology you need or leverage your existing cybersecurity technology investments from third-parties to detect and respond to threats. Through a connected tech approach that collects and correlates security data from the most commonly used security products, Sophos MDR can filter out noisy and redundent security alerts, and eliminate confirmed threats with speed, accuracy, and transparency.

Peer Recognition

Gartner Peer Insights Customers' Choice 2023

Sophos named as a Customers Choice in the 2023 Gartner®, Voice of the Customer for Managed Detection and Response Services report

G2 Leader

The Overall Top-Rated Managed Detection and Response Service as rated and reviewed by customers on G2
